Bevoe covers 300 to 500, our agents think. We think 300 to low and 500 too high; though doubtless, they both occur. How much the other paints cover is equally doubtful; we guess 100 to 400.

The truth is found in another comparison. Devoe is all paint, true paint, strong paint, and full-measure; theothers in general are, at the best, diluted, adulterated and short measure. They cover according to body and measure. You can't paint with clay lime chalk sand barytes water or air—no body in them. Go by Devoe. Yours truly
